Pros Moving to the cloud: Like the other apps in the latest Mac Office suite, Excel 2016 lets you store, sync, and edit files online, via Microsoft's OneDrive cloud storage service.. You can chat online as well, either through a document chat window or through Skype.. Microsoft Excel helps you track and visualize data for better insight and management with updated data analysis tools and spreadsheet templates.. The biggest new feature of Microsoft Excel 2016 is that it automatically suggests graphs and charts that are appropriate for the data you're processing.. Instant download Modern design: The redesigned ribbon for the Mac version of Excel borrows the look and feel of its Windows counterpart, presenting tools and formatting options in much the same way as Excel for Windows does.. The feature works very well Incidentally, so does the rest of the software: it highlights trends in your data upon request, and like the rest of Office 2016, it provides real-time collaboration via Microsoft's OneDrive cloud storage.
